POWER ON/OFF SYSTEM

- Tap the room controls icon on the panel 
- Tap the corresponding power button labeled “Start System” or “Shutdown” (Depending on your situation)
- Please Shutdown system when done!
- Look at color of mic for status

ONLY SHARING CONTENT

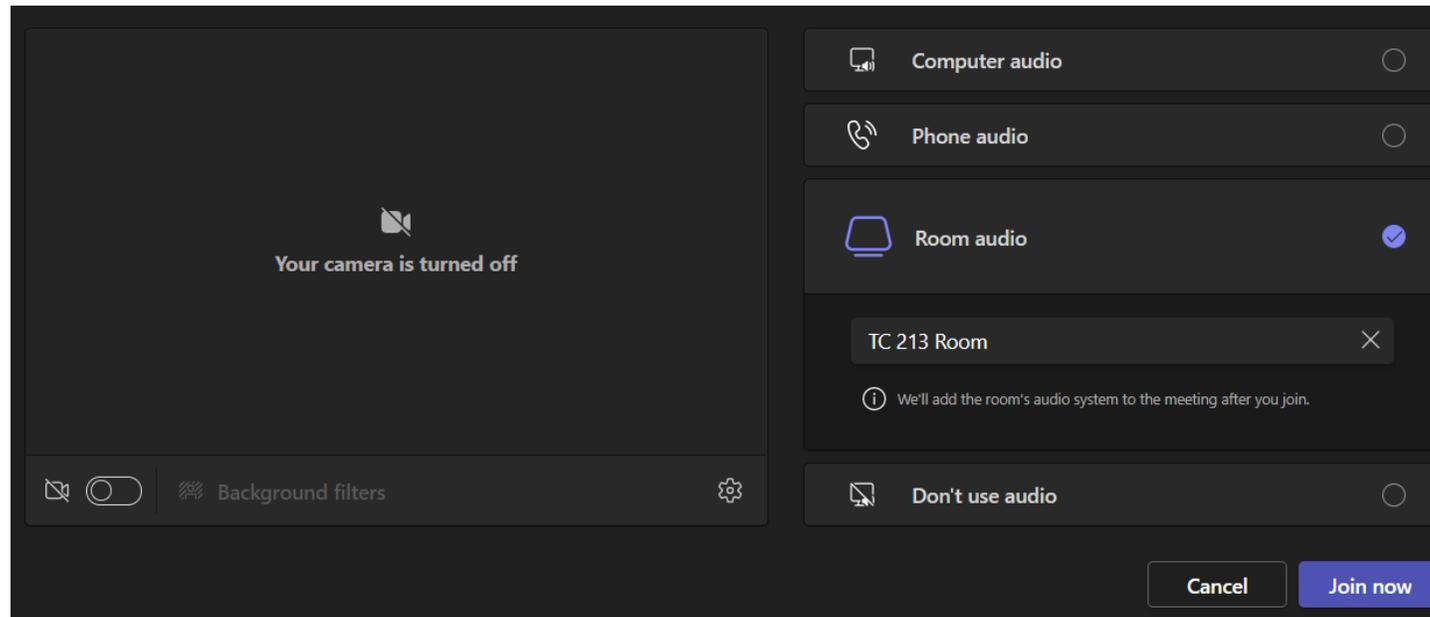

- Power On System
- Just connect HDMI cable on podium to laptop
- If presenting with sound, verify your audio on your laptop is using “NV-32-H... (Audio Device)” by clicking on the speaker icon in the bottom right of your screen (Windows computers only).

ROOM SCHEDULING

- When scheduling Teams meeting be sure to invite the room on the meeting invite or forward an already created meeting
 - Rooms are named by building and room number in the address book
- Needs to have the Teams link in the body of the message
- Room will accept meeting request if room is available
- Room will deny meeting request if something is already booked
- Use scheduling assistant to see open times
- Touch panel on podium will display upcoming meetings

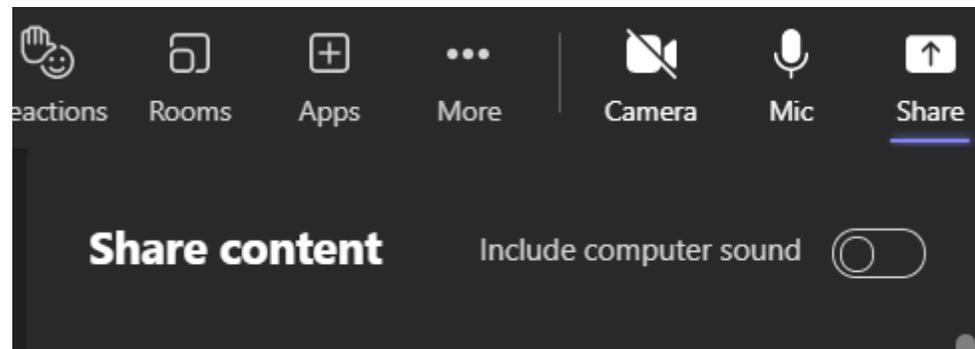

START MEETING

- Power On Room System
- Join the meeting on your laptop and select to use “Room Audio” (Be sure the correct room is selected in the room audio drop down before joining).

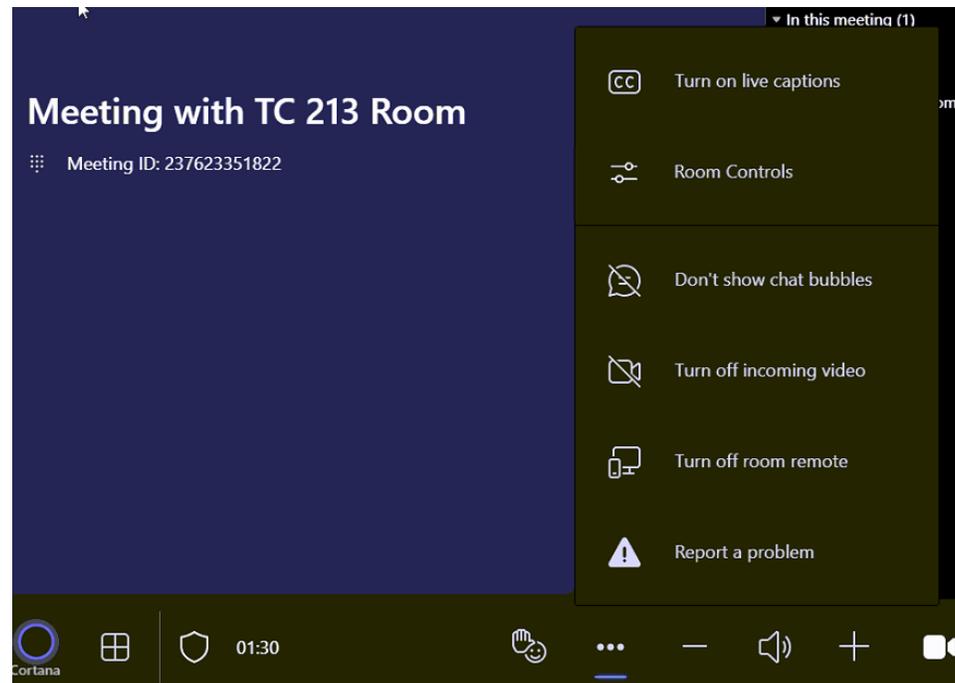

SHARING CONTENT IN MEETING

- Share from laptop like any meeting
- If you want any audio make sure to select the option to “Include computer sound” when sharing

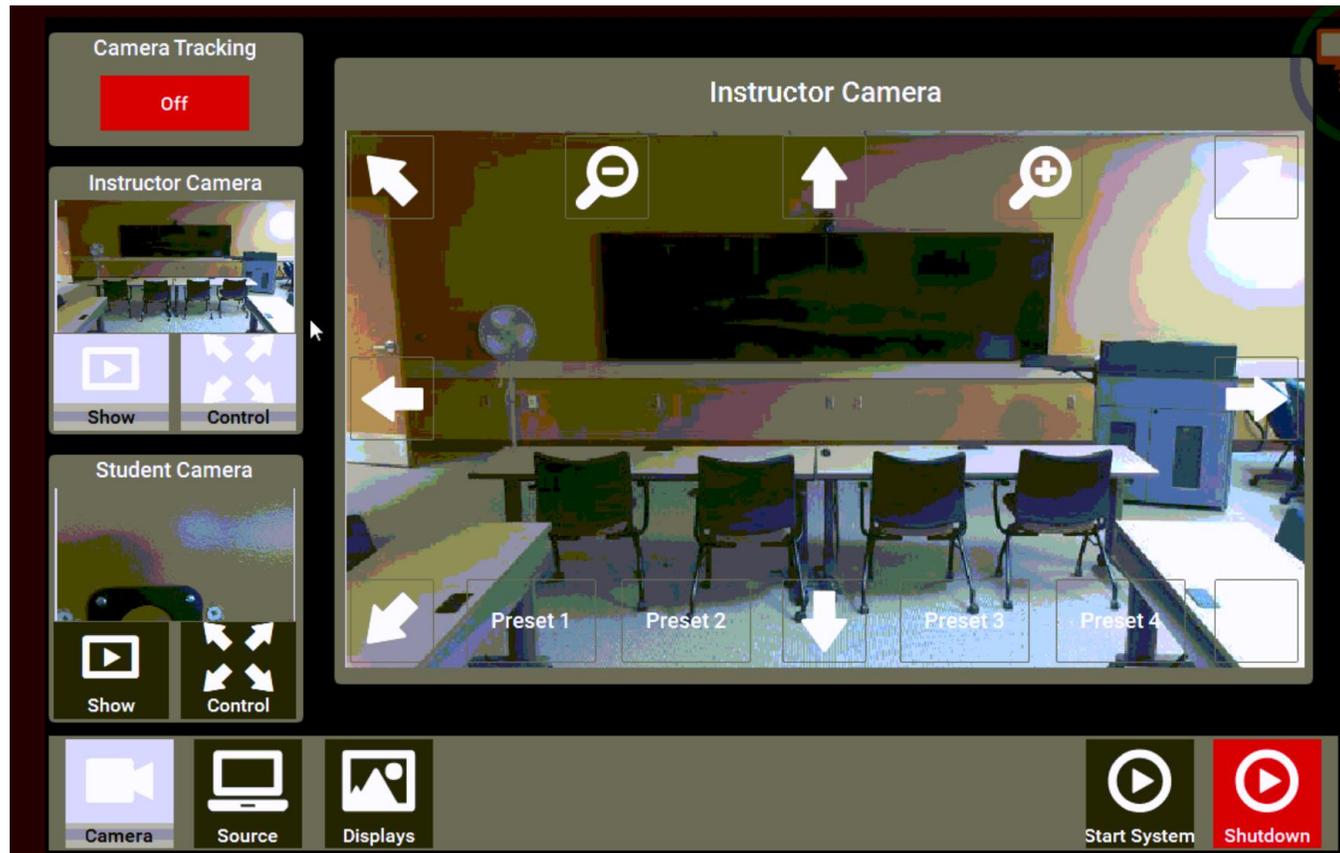

CAMERA CONTROLS

- Before starting meeting - Tap the room controls icon on the panel 
- After starting meeting – Tap 3 dots for settings and go to Room Controls

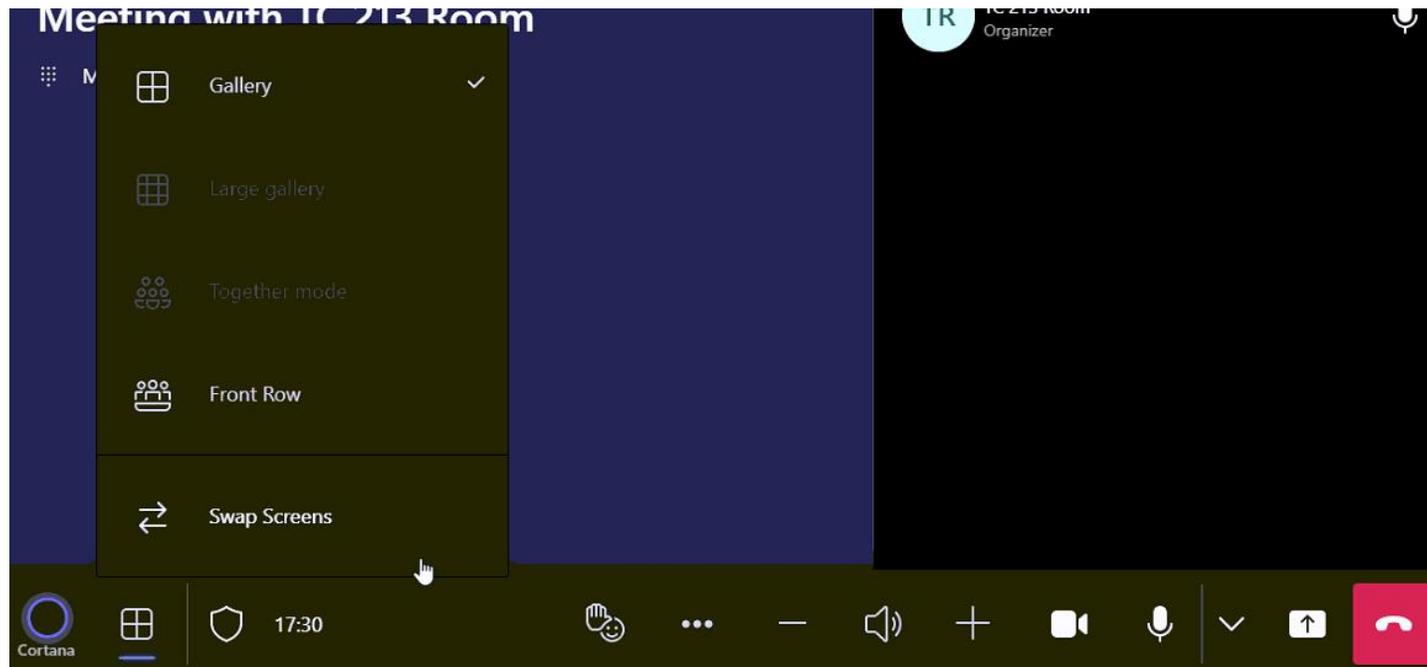

CAMERA CONTROLS

- Auto tracking is off by default
- Default is camera facing front of room
